What's Dirty

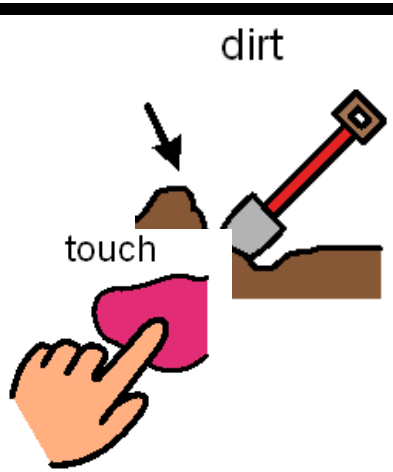

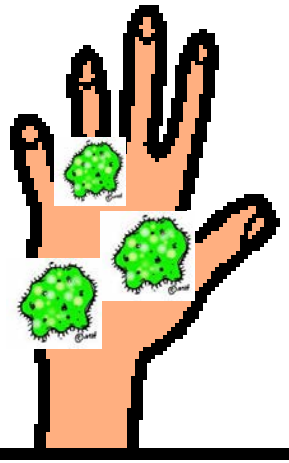

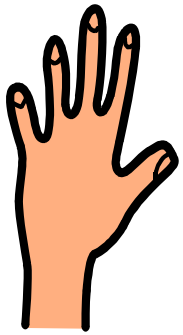

dirty

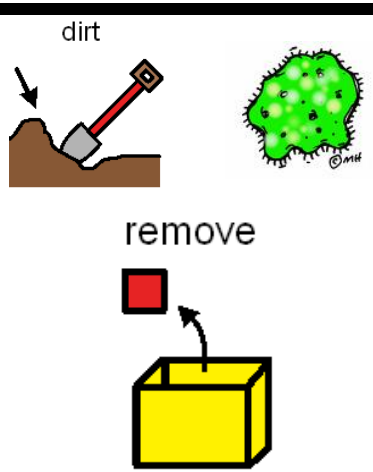

1	Dirty things are full of dirt and germs	Lots of things are dirty. Sometimes I can see the dirt.	But sometimes the dirt and germs are there and I can't see them.	Dirt and germs can make me and other people sick.
				

2	Almost everything is dirty sometimes, but some things are dirty all the time.	Floors, toilets, mud & dirt and bugs,	Rubbish and snot from noses,	Pee and poo are always dirty.
	dirt 	floor  go to toilet  bug  mud 	rubbish  cold 	go to toilet 

3	I must not eat anything dirty,	or put anything dirty in my mouth.	Dirty things are full of germs and can make me sick.	Dirt and germs are not good for my body.
				

4	My hands are often dirty because my hands touch many dirty things.	If I touch something that's dirty.	Then they will be dirty with germs	Even when my hands don't look dirty,
				

5	I need to wash my hands every day with soap and water	Washing my hands will take off the dirty and germs.	I should wash my hands every time I touch something dirty.	I will remember that many things are dirty and full of germs can make me sick.
